DOWN IN MAINE
I read the Fryeburg River's
"Down in Maine"
Now what's he trying to give us
Down in Maine?
Sure the climate is just prime,
It is spring most all the time,
And our winter's just a rhyme,
Down in Maine.
Now, nothing could be better
Down in Maine.
Never saw a winter wetter
Down in Maine.
Soon the snows the flowers will bring
And the bluebirds all will sing
Then we shall know it's Spring,
Down in Maine.
Very soon in and you'll sink
Down in Maine.
To the very utmost brink,
Down in Maine.
Then you race around and swear
And just want to pull your hair,
You'll have to wait right there,
Down in Maine.
So don't stick around and pout,
Down in Maine.
Get a horse to pull you out,
Down in Maine.
By and by the sun will beam,
And then the car will stream,
You will think 'twas all a dream,
Down in Maine.
—BILLY STROTHER.

"I wash, iron and carry coal and don't get tired since taking Vinol. Also, I have gained 18 pounds."—Mrs. S. Cor-tese.
Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how tired, Vinol gives new pep, sound sleep and a big appetite. The very first bottle often adds several pounds weight to thin child, teen or adult. Tastes delicious. L. V. Ashton, Druggist.

Good Judgement Says
"Make Your Will"

Do you know exactly who will get your property if you do not leave a will? Different states have different laws in this respect—do you know the laws in our State?

You owe it to yourself to have the facts and we will give them to you gladly, without cost.

Speaking of costs: The legal fees for an executor under a will are the same whether you appoint your friend or wife who may not have experience, or whether you name us, with our long experience in knowing exactly what to do and how to do it legally, safely, promptly.

Why not consider this as a business matter which calls for a decision. Let us help you.

Women Prize
Electrol Above Every
Other Household
Convenience

Every woman who has experienced the wonderful cleanliness of Electrol heat will tell you that she would not part with her quiet Electrol for many times its cost.

Draperies, curtains, overdrapes, woodwork and wallpaper, which quickly become soiled where coal is burned, remain clean and retain their fresh appearance a surprisingly long time in homes heated by Electrol.

Smoke, soot and dirt are entirely eliminated. You rid yourself of these discouraging nuisances. Laundering and cleaning expense are reduced to the minimum. Rugs and upholstery remain clean much longer. The labors of housecleaning are materially lessened. The woman who does her own work enjoys a new sense of freedom, with more time to call her own.

A STEP AHEAD IN STOREKEEPING — THE VISION OF TODAY

MARCH 23rd

we will close at noon
to put the finishing touches on our
new store—which we will open
for inspection, Friday evening,
March 23rd, at seven o'clock.
There will be no merchandise sold.

The Opening

Friday evening---March 23rd at 7 o'clock

On Friday evening, at seven o'clock, our doors swing open to welcome our friends, old and new, to our new store. There will be no formality. There will be music but no ceremony. There will be no merchandise sold. But it will be an opportunity for a glance behind the scenes; for a peep at the things usually unseen but so necessary to successful storekeeping today; to see the newest in style and the best in merchandise for Spring. The store family will be here to greet you; to answer any questions; to show you through the store if you desire.

*In planning our new store
we have had this thought
always in mind*

—to provide everything that
makes for easier and better shopping
but to avoid all that is wasteful
or extravagant.

—so that with our increased advantages
for service we may also
maintain at all times our fundamental
price policy, which is

*Prices always as low and lower
if possible than those quoted

We are never knowingly undersold.

We would like you to see the changes we've made

One of the most helpful changes, from the standpoint of convenience in shopping, is the rearrangement of our departments, so that kindred lines of merchandise are located but a few steps from each other.

—in addition, a division of departments, which affords a greater degree of specialization in merchandise and service than we have ever been able to provide before.

—on our first floor

greatly enlarged departments for toilet goods, toilet sundries, stationery, jewelry, leather goods, men's furnishings, boys' furnishings, women's shoes and hosiery. Our large new art goods department—our spacious new fabrics department with daylight on every side—and two new departments for children's hosiery and children's shoes.

—our second floor

now twice its former size and arranged in specialized sections devoted to women's silk and knit underwear,

to corsets, to children's and infants' wear, to cotton dresses, uniforms and bath robes, to coats and suits, to furs and to dresses. And we have added three new departments—a junior misses' department, a sport clothes department, and an inexpensive dress department.

—in the basement—our new fireproof vault embodying the most advanced method for the storage and protection of furs. This is a real addition to our service for it eliminates out-of-town storage and keeps your furs within easy reach at all times.

—our newly remodeled basement devoted to open stock dinnerware, silver and glass and to all that is most helpful in housewares.

—our receiving rooms where incoming merchandise is opened, checked, examined and distributed to its various departments.

—our shipping room from which thousands of packages are delivered to our customers by our own trucks, express or mail.

*We extend a cordial invitation to all to attend the opening of our new store on Friday evening,
March 23rd at seven o'clock — to see our vision of today — a step ahead in storekeeping.*

Oxford County United Parish

Including Albany, North Lovell, Stoneham and the Waterfalls. Pastoral Staff: Revs. W. J. Bull, B. F. Wentworth, A. C. Townsend

The monthly meeting of the Council was held at North Waterford, last Thursday, and it was a regular March meeting with all the regulars present. Not a dull moment from 10:30 till after 4, with a social hour and a dinner served by the North Waterford ladies. Not much business done, but plenty of discussion of parish problems. There was no speaker from outside, but plenty of speaking from inside. Delegations were present from all the local parishes.

Some matters discussed were: Finance, which were reported to be in good condition, but needing some clearing up of the last canvass in some of the local parishes.

Following pictures, which everyone enjoys, at which some felt were receiving undue attention as compared with some other services in different parts of the parish. An informal vote showed a desire for summer singing of the kind again this season, but not so frequently as to interfere with the regular services in the local parishes.

An All-Parish church membership question was discussed whether or not the time has come to merge the present inter-denominational group into a single undenominational United Parish Church of Christ, or retaining the present denominational connections, to add thereto an affiliated undenominational membership. A committee was appointed to make further study of the matter, and report to the next meeting of the Council in May.

A Parish Calendar showing the regular services within the bounds of the Parish, in order that conflicts of dates may be avoided as far as possible. A committee of one from each community was appointed to prepare such a calendar. A District Nurse. Shall one be added to the staff of the United Parish? The expense of this is the only reason for objection. A Health Committee was organized, the names to be reported at the next meeting. This committee, when it functions, may find a way to the desired end.

A summer worker. It was reported that the Maine Missionary Society was assigning a young lady student of Hartford Seminary for work in the Parish during the coming summer.

A boys' and girls' conference will be held at the Community House at Waterford, Saturday, March 24, beginning at 10 a. m., with a picnic dinner at noon and games in the afternoon. Edward J. Smith, of Newburgh, in the North Waterford school, will be a special speaker. Buses for transportation from various parts of the Parish are being arranged.

The picture being shown in the Parish this week is a film of Joseph Conrad's story, "Lord Jim". The picture in the United Parish has been selected to read in the newspapers. The Rev. Charles Harbutt, superintendent Emeritus of the Maine Missionary Society, Mr. Harbutt held this office for over twenty-five years, and one of the last of his official acts was to take the final steps leading to the organization of the Oxford County United Parish. He is a fine workman, but he carries on his work.

OLD BILL GIVES YOU A HEN STORY AND FOR A WONDER IT IS THE TRUTH

The late Robert K. Eastman, when he was living alone at North Chatham, N. H., one day in November before closing up his little place to the house cellar stuffed a lot of meadow hay down over the stone steps. Above that was a building of straw hay built up to cover it up, with a door, like any house door. After he got the hay stuffed down he went in to dinner leaving this door open. After dinner he went around there and closed the door. It was not opened again until April and when he did open it there was five of his Barred Plymouth Rock hens in there and they were alive but that was about all you could call it. They came out into the sunlight and staggered around but after a week you wouldn't have known anything had ever happened to them. The truth of this can be vouched for more than 20 people in that neighborhood today. There was not a drop of water and only the meadow hay for them to pick for about five months. The hens probably went in there while he was at dinner as the yard was full of them.

—Old Bill.
